Subject: S/027/043 cancellation of NOI

I received a call from Tom Clark 466-9505. He received our annual report request. He says he had asked that the NOI put on hold. Why did he receive the request? After discussing it with him, it sounds like the NOI was approved and then listed as suspended. He would like to cancel his NOI. I told him to send us a letter stating his intentions. I told him to indicate on the annual report that he has done no work at the site. He said that he didn't want to be blamed for any disturbance because he didn't do any work out there. Without putting him on the spot--it sounds like he knows someone has been doing something out there this past year.

I checked the file for unusual circumstances. It looks like he has leased some of the patented property from the owner. The report for 1992 indicated that the land was in litigation and Mr. Clark would not be doing anything until the litigation was over. Holland inspected the site in Oct. 1992 to verify variance requests. It is a pumice operation.

I called Mr. Clark back to confirm that he needs to send us a letter to cancel the NOI. I told him that we would probably need to perform a site inspection to finalize his cancellation. He said he didn't want to be associated with this other operator who had been working out there, who probably thinks he is operating under Mr. Clark's NOI. OKAY?
